## WIDOW RUNS DOWN MURDER SUSPECT AFTER 21 YEARS

Vows to Get Revenge for Slaying of Spouse; Echo of Old Cattle War.

Tablequah, Okla.—Persistence of the widow of J. Griffin Harnage, prominent Oklahoma cattleman who was slain while waging a relentless fight on cattle rustlers 21 years ago, at last has brought the arrest of a man as the suspected killer.

Charles Sater, sixty years old, who is being held here on the charge of murdering Harnage, denies boasting that "I killed a man once," and declares that the accusation is the work of his enemies.

Since the arrest of Sater early in December, the state board of criminal identification and investigation, and County Attorney Claude Thompson of Cherokee county, in which Harnage was slain, have been carrying on a thorough investigation. Whether there is enough evidence to justify bringing Sater to trial for the murder of Harnage, and when he shall face the charge, has not been decided.

Was Slain in 1912.  
The body of Harnage was found on Stick Road mountain near Tablequah on the morning of October 6, 1912. He had been gathering evidence against cattle rustlers who were preying on the herds of the Cherokee county range. He confided in no one but his wife, and jotted down his findings in a notebook which he carried constantly.

As the years passed, the murder of the prominent cattleman was almost forgotten by every one except his widow, who moved to Tulsa, Okla., several years ago. She declared that she would devote the rest of her life to trying to bring the slayers of her husband to justice.

Sater, a resident of Tablequah at the time of Harnage's death, also had moved to the vicinity of Tulsa, residing at the little town of Dewey. A few weeks ago he was arrested on a disturbance charge after a fight with Frank Smart of Dewey, whose cow had been killed.

Boasted of Killing.  
After the fight, word reached Mrs. Harnage in Tulsa that Sater had been boasting that he once killed a man. The widow remembered that Sater had been a resident of Tablequah at the time of her great tragedy and went to Dewey to investigate.

Mrs. Harnage talked to Frank Smart and his father, Tom Smart, who also had been a resident of Tablequah when Harnage was murdered. The woman, still determined on bringing the slayer of her husband to justice, went to Justice of the Peace J. M. Burton, before whom Sater had been arraigned on the disturbance charge, and asked his co-operation.

The justice immediately notified County Attorney Thompson at Tablequah that new evidence had been found in the twenty-one-year-old range murder. Mrs. Harnage revealed to the county attorney that Frank Smart had told her that Sater often had told him that he (Sater) killed Harnage.

"He told me that Sater had related that he had been promised \$50 and a span of mules for killing my husband," Mrs. Harnage told the county attorney Smart had confided to her.

Sater admitted to officers that he had discussed the old case with Frank Smart, but declared that he had "turned down the proposition" when a man, now dead five years, had offered him the money and the mules to commit the crime.

### Man Forgotten in Jail

"Too Well Off" to Kick  
Camden, N. J.—A truly forgotten man was discovered here. He is Elmer Fattling, of Richwood. A deputy found him in a county jail cell.

"What are you in here for?" asked the deputy.  
"I forgot," retorted Fattling.  
Research disclosed that Fattling was locked up June 30, 1933, after he failed to post a \$500 bond to insure payment of \$4 a week to his wife.

"Why didn't you say something?" asked Judge Samuel M. Shay.  
"I know when I'm well off," said Elmer.

The judge ordered him to pay his wife \$4 a week, and put him out of jail.

### Boy With Only One Leg

Skis, Swims and Boxes  
Quebec.—When Jean Yves Gosselin knocks out a ring opponent his own day, he will have achieved outstanding excellence in virtually every major sport in which Jordan indulges, and Jean, fourteen years old, has only one leg.

Seven years ago Jean suffered an accident while skating which resulted in the amputation of his right leg at the hip. But today he is an expert ski jumper, plays hockey, baseball, tennis, and swims and drives like a fish. He also rides a bicycle, just to go to and from places. His feats of skill invariably attract a throng of admirers.

### Pot Cat Battles Adder;

Is Saved by a Spade!

Greenbury, Colo.—Ray Gandy went to the aid of a house cat when he found it engaged in a battle to the death with a spreading adder, and dispatched the snake with a spade. He insisted, however, that the cat was getting the best of the snake.

### Lost Race Traced to Crutians

The identity of a "lost race" supposed by some to contain the blood of the first English settlers in North America, has been traced tentatively. These people were the "Crutians" of English and Indian origin, and were concentrated in North Carolina.

## A Washington Daybook

By HERBERT PLUMMER  
WASHINGTON—A steady stream of hard-bitten men from Nevada by the name of Patrick McCarran.

who came to the scene a few days ago, is making plenty of trouble for the administration these days.

He is the man who engineered the successful move in the senate for the full restoration of government salaries on July 1 despite the known wishes of President Roosevelt.

Former chief justice of his state and one-time member of the Nevada legislature, McCarran has been doing pretty much as he pleases almost from the time he first took his seat in the senate.

The administration's economy measure has been his target from the start. When the bill reached the senate in the special session he made an effort to have it sentenced to a quiet slumber in a committee pigeon hole.

Shooting At Glass  
His fighting temperament showed itself during debate on this question. While senate galleries

blamed it on the women "Women stir up trouble in politics," said H. H. Hu, the sage of China town, "because of the natural house-keeping sense that insists on having the dust swept out of dark corners."

watched in amazement and other senators looked on with concern. McCarran made an attempt to "dress down" Carter Glass of Virginia.

Oldtimers in the senate think twice before engaging the fiery little Virginian. For a newcomer to attempt such a thing was something hard to believe.

McCarran's ire was aroused by Glass' aside remarks concerning him. Jumping to his feet in a show of anger he demanded that Glass apologize.

"I want that sort of thing stopped," he said. "If it's not stopped, I'll invoke the rules of the senate."

'Of The Reservation'  
THE pay restoration move is not the first instance in which McCarran has shown a disposition to act and vote counter to the democratic majority to which he belongs.

Only a short time ago the senate adopted his amendment to the \$55,000,000 CWA appropriation bill to force the President to appoint all CWA state relief administrators with senatorial consent. When the house, however, refused to accept it in conference it had to be abandoned.

McCarran doesn't come up for reelection until 1939. That circumstance might encourage independence—however much it plagues democrats wanting smooth sailing for administration projects.

## OUT OF THE MASS GROUP INTO THE CLASS GROUP

... for a few dollars more a month!

The 2-Door Sedan—List Price at Pontiac, Michigan, \$725\*

The whole ideal of our modern American life is built around the philosophy that tomorrow must always be better than today!

And nowhere is this more evident than in our appraisal of motor cars. Those of us who sell Pontiacs are made keenly aware of this.

Day after day, we hear people say—"I'm so glad I decided to buy a Pontiac Straight Eight! It's such a satisfaction to feel that we have something more than mere transportation."

This extra measure of satisfaction, of course, is strictly a plus value when you purchase a new Pontiac.

For, purely on the basis of what the car itself provides—Pontiac is, without question, the most logical car in America for anyone to buy.

First of all, Pontiac is a big car—with a wheelbase of 117 inches—and big, roomy bodies by Fisher.

It is powered by the great Pontiac "Speedway Eight" engine—one of the finest motors in use today.

It rides, thanks to its new "Knee-Action" front wheels, with amazing rhythm and comfort on any road.

LIST PRICE AT PONTIAC, MICHIGAN  
**\$695**  
AND UP

\*\$248 bumper, spare tire, model three covers, tire lock and spring covers, the list price is \$223.00 additional.

And, finally, it is one of the two most beautiful cars in America today—absolutely regardless of cost.

Certainly, it's a pleasure to own the new Pontiac. For it is unmistakable that the man who drives a Pontiac has gone out of the mass group into the class group.

And yet—it costs practically nothing to take this step. When bought on time payment, the difference between the cheapest cars and the Pontiac is frequently not more than a few dollars a month.

Come in for a demonstration. Let us show you how easy it is to step up to "Straight Eight" ownership!

## Five Clinics for Diseases of Lungs

Health officers and physicians are busy preparing to the proposed clinics for the early diagnosis of tuberculosis. As a part of the health measures and at the request of the local health officers, Dr. Frank Laidlaw, district state health officer, has made arrangements with the state department of health to hold five consultation clinics for diseases of the lungs at the following places:

Albany—March 15 (Monday), 2 o'clock, at the Albany Hospital.  
 Kingston—Tuesday, March 16, 2 o'clock, at the Kingston Hospital.  
 Kingston—Wednesday, March 17, 2 o'clock, at the Kingston Hospital.  
 Kingston—Thursday, March 18, 2 o'clock, at the Kingston Hospital.  
 Kingston—Friday, March 19, 2 o'clock, at the Kingston Hospital.  
 The clinic hours will be from 1 to 2 p.m.

Two physicians of the state department of health will examine the patients and X-ray pictures will be taken. Anyone desiring an examination will be admitted upon presentation of a card signed by the family physician, or if there be no family physician, by the health officer. In an effort to assist the family physicians, these clinics have been held throughout the state at intervals for the past 15 years and large numbers of people have been referred by their family doctors for consultation and X-ray. Aside from known cases of tuberculosis, patients who have been referred for examination have been of two types: (1) persons presenting such symptoms as bronchitis, asthma, coughs, persistent colds, loss of weight, undue fatigue and symptoms of like character, and (2) persons, especially children, who have been in contact with cases of tuberculosis.

It is felt that the early diagnosis and prompt treatment of cases, and the close supervision and periodic re-examination of exposed children, will do much to further decrease the death rate from tuberculosis.

## Milk Control System To Be Aired March 22

Albany, N. Y., March 15 (AP)—Proposed legislation for the continuation of New York state's milk control system will be given a public airing at a hearing on Friday, March 22.

Senator William T. Byrne, chairman of the Senate agriculture committee, announced the date late yesterday after a conference with Chairman Charles E. Baldwin of the present board. The Assembly agriculture group headed by Assemblyman Frank M. Smith will sit with the Senate committee.

Senator Perley A. Pitcher, Watertown Republican who fathered the law under which the present board was created last spring, was to introduce in the legislature today a bill intended to continue the board's price fixing powers for another year and place its other functions in a permanent division of the department of agriculture and markets. The bill, drafted by a committee headed by Dr. Leland A. Spencer of Cornell University, who conducted an investigation on dealers' costs and profits, carries out generally the recommendations of the board. The latter last week in its report to the legislature said that an emergency still existed in the milk industry.

## Byrd Fokker Plane Crashes on Ice Today

Little America, via Mackay Radio, March 14 (delayed) (AP)—Admiral Richard E. Byrd's monoplane, carrying Lt. Com. Isaac Schlossbach, U. S. Navy retired, and three passengers, crashed at 12:30 p. m. today. No one was seriously injured.

The plane cracked up 500 yards south of the expedition camp here. In the plane besides Lt. Com. Schlossbach were Arthur A. Zuhn, Mount Pleasant, Iowa; Fred J. Dustin, Revere, Mass.; and Harry Young, New Zealand.

All suffered slight cuts and were severely shaken up, but were otherwise unharmed. The plane itself, a single engine Fokker, was completely wrecked. The engine and instrument can be salvaged, however. The plane had just taken off on a test flight preparatory to a flight toward the South Pole in company with the other expedition monoplanes.

The two planes were to have acted as transports to a depot being established 100 miles south of here.

## Violent Threat Ends In Kidnaping Death

New York, March 15 (AP)—Kidnaping of a young woman, daughter of a family, was ended today by a violent threat, which resulted in her death.

The girl, who was 21 years old, was found dead in a rooming house in the city.

The girl was found early yesterday in front of a building in Ocean-side, Long Island. She was found lying on the ground, and was apparently dead. The girl's name was in the labels of the clothing.

The medical examiner fired the shot of the girl's death as early Monday morning. Kasoff, who was 37 years old and well known in the automobile rental business, disappeared from home last Thursday night.

P. T. A. School No. 2 Father's Night was observed at the regular meeting of the Parent-Teacher Association of School No. 2 on Tuesday evening. The meeting was opened by Mrs. A. Salzman, vice president, with the salute to the flag, and was followed by the reports of the officers. Communications were read from Senator Wickes and Assemblyman Conway in reply to letters sent them on state aid and child labor. The resignation of Mrs. Alvin Black as president was accepted with regret. Miss Arnold's room won the banner for the month. During the evening Mrs. Jeanette Williams sang two solos, accompanied on the piano by Mrs. Harry Hohn. The speaker of the evening was Superintendent B. C. Van Ingen who gave an interesting talk on education. At the close of the meeting ice cream and cake were served, and at the close of the meeting the parents were invited to visit the rooms in the school to view the work done by the pupils and meet the members of the faculty.

## When CWA Employees Gain Partial Victory

Union N. Y., March 15 (AP)—Six hundred striking CWA workers were back to their jobs today, and another 1000 partially victorious in their three day battle to protect wages and work reductions.

The men will receive 10 cents an hour increase in the next pay scale, but will work only 34 hours a week. For many they were employed in the same way.

Deputed to pay the men the same as in the past was announced last night by Roy C. Vandenberg, chairman, after a meeting of the CWA committee. He had been informed by Frederick J. Daniels of New York state CWA director that establishment of the local wage rate was not possible.

## Judith Lane

by JEANNE BOWMAN

CHAPTER TEN  
 BEVING'S PLAN

NORMAN left her at the street door and Judith ascended to the floor of the Beving Building on which Big Tom kept his private suite. She opened the door with her own key, then stood for a moment. The room was dark, and Big Tom sat before the wide window opening onto the dusk and city lights.

"Thank you for coming, Judy," he said. "Turn on the desk light, will you please, there..." he sighed queerly as the yellow glow revealed the desk with its pile of neatly stacked papers.

Judith looked at it in surprise, she looked at him.

As things stand now I have Lampere blocked both ways

"Mister Beving... you're ill," she cried.

"No, Judy, I was ill this morning. All right now. Judy come here, come close... that's a girl."

He searched her face with an intense gaze, much as Delphy had searched it an hour before, and like the old colored woman, he nodded satisfied.

"Judy," he said, "you're a fine girl. You've made up in great measure for my not having a son. We've worked here together for four years and I believe we understand each other pretty thoroughly, don't you?"

Judith looked at him in surprise. He seemed suddenly old—"Yes, indeed, Big Tom."

"I may do things in the future which seem a little queer to you, but knowing me I believe you'll see below the surface to the motive. Now to business."

"Get that surveyors plat of the Rio Diablo basin, will you... that's it. Now see the great line... then those dotted lines beyond."

"I've a record of the deeds filed in Rio Mar here, and I have a few new deeds, taking care of the upper dam. I want you to check that map as I read these off... you remember you made a copy from the one in the County Clerk's office... and see that every inch of the basin, upper and lower dam, spillway and two miles beyond is covered. Ready?"

HALF an hour later Judith looked up. "It's water tight, Mr. Beving. Except for the Scoggins farm angle which jumps into the main basin, there isn't an inch of ground you need that you don't own."

"Tomorrow, Judith, you will own it."

"What... what do you mean?"

"This. After I left you last night I got the wires busy. By dawn I knew Lampere was trying to double-cross me. When our reports of the annual water footage which might be expected in the Rio Diablo basin came in, Lampere discovered that what he had thought an old fool's hobby, could be made a veritable gold mine."

"He thought that by purchasing a sufficient piece of land, a piece neces-

sary for my building of the dam, he could force me to exploit the project, charge the poor landholders exorbitant rates for their irrigation privileges, and utilize the water power for selfish purposes."

"He discovered I owned every bit of the land save that owned by Scoggins, and sent a representative to Scoggins, offering him a remarkable price for his land. Fortunately, he approached the most loyal, land-loving man there. He kept faith with me and refused to sell (you understand, Judy, that Lampere did not show his hand in any of this, but because of your friend, Cita, I was able to trace it back to his influence)."

"Having failed to obtain land around the lower dam, Lampere had a wily engineer by the name of Manahatter, go over the copy of a blue print, obtained from the original real estate people there, and he discovered that they might switch the course of the Rio Diablo, through an artificial channel, around the land owned by the natives and through virgin territory, upon which Lampere quickly obtained an option."

"However, he first had to acquire land around the upper dam, and thanks to that storm, I was spurred into buying that before he got into the field."

LYONSVILLE

Lyonsville, March 14—Miss Ethel Wager of Kingston spent the week-end at the home of her parents, Mr. and Mrs. John Wager.

Marie Trowbridge called at the home of Mrs. Ray Davis on Saturday. Mr. and Mrs. Fred Barley and daughter, Eva, called at the home of Mrs. Lottie Roosa of Kripplenshush on Sunday.

Mr. and Mrs. Kenneth Oakley and son, Kenneth, spent Monday in Kingston.

Miss Ethel Wager called at the home of Mr. and Mrs. Sherman Barley on Sunday.

Mrs. Chester Alexander has returned to her home after spending some time at the home of her daughter, Mrs. E. Gaskins, of Newburgh.

Canada's White Population

Canada's white population is more than 30 per cent of British origin and nearly 30 per cent French origin.

Constant Makes Slow Growth

It requires 30 years for the rate variety of double croquet, called croquet, to attain full maturity and sometimes a weight of 30 pounds. The fruit, which takes longer to ripen than any other in the world, grows exclusively on islands in the Indian ocean.

## When Ice Jam Went Out Rondout Creek Carrying 50 Boats With It

Fifty Vessels or More Swept Out of Creek 41 Years Ago as Ice Jam Let Loose at Eddyville—"It Was An Awful Scene," Said The Freeman That Day in 1893—Thousands of Tons of Ice Pushed on By Raging Torrent Raised Havoc.

The ice jam that had formed at the creek were caught in the vortex. Eddyville recalls the scene of old residents that fearful day of March 13, 1893, when the jam let loose at Eddyville and thousands of tons of ice pushed on by a raging torrent swept down the lower Rondout creek carrying with it 50 or more vessels in one of the wildest days ever recalled in the history of the creek.

The Freeman of March 13, 1893, said that Eddyville seemingly has two plagues to contend with—fire and water. Two years ago an ice gorge caused the water to back up and inundate the lower part of the village and about a year ago fire destroyed about 15 buildings there. These, however, were not the first visitations by fire and water, for the residents had suffered from similar causes before.

"Last night," said The Freeman of 1893, "there was a repetition of the flood of two years ago and the streets were again flooded. The break up of the ice had been looked for since Friday when the ice formed a gorge at Connelly & Shafer's mill on the upper creek." The Freeman story then went on to say that a big ice jam had formed just above Wilbur and that Eddyville streets in places were under five feet of water.

During the morning of March 13, the Norwich was busy breaking up the ice in the river at the mouth of the creek, while the tug Mills broke up the ice along the docks in the lower creek and as a result of the Norwich breaking up the ice in the river at the mouth of the creek it paved the way for eliminating much greater damage when the flood let loose at 4 o'clock that afternoon.

"Swept Out the Creek"

Under the heading "Swept Out the Creek" The Freeman of March 14, stated that fifty or more vessels, comprising steam tugs, side wheelers, canal boats and barges that appeared one solid mass, ground together by thousands of tons of ice, were swept out of the creek late Monday afternoon.

"It was a scene that will never be forgotten by those who witnessed the outgoing of the vessels, as they jammed against one another and against the docks, the noise of parting lines and cracking timbers being plainly heard a block or more away. The shouts of the men on the boats who worked like maniacs hauling in the lines, endeavoring to make the boats fast, and the cries of warning from the people on the docks to the boatmen added to the excitement and the scene was one that words cannot picture."

Ice Jam Gave Way.

The huge ice jam above Wilbur that had held back the angry waters of the Walkkill and upper creek since Sunday night causing Eddyville to be almost submerged, suddenly broke from its fastenings about 4 o'clock Monday afternoon, March 13, 1893.

The huge mass of water as it swept down the creek loosened the solid ice and pushed it before it as it plunged on toward the mouth of the creek. Several ice barges up

down toward the mouth of the creek were the sight of families who occupied some of the canal boats. They, especially the women, were frenzied with fear, and well they might be, for had they been swept into the river in their boats many of them would have likely drowned. Most of them leaped to the island dock as the boats swept by and some got ashore by leaping on the floating ice. It was a miracle that no lives were lost during this exciting escape.

Coal Elevator Went Out

One of the coal elevators broke from the dock and went down stream behind the general Jan. Joseph Manary and Thomas Rowland, bosses on the coal dock, were on the elevator. The tug Mills steamed through the heavy ice and managed to secure her to the dock near the McEntee & Rodie boiler shop.

Swept Into River

The other boats swept out of the creek into the river where there was a large open space formed by the Norwich in the morning. Some of the huge side-wheelers turned completely around and the sound of vessels jamming together could be heard every instant.

The ferry transport was returning from Rhinebeck and met the raging waters just inside the dyke. She could not save herself but did much toward steadying the drifting boats. The oncoming ice crowded these boats together out in the river and the transport was so hemmed in escape was impossible. There were a number of passengers on the ferry and many of them were panic-stricken. They escaped by leaping across to the firm ice from the large floating cakes about her.

For nearly two hours after the boats had gone out of the creek the

Some of the vessels that were swept down toward the mouth of the creek were the Austin, Oswego, McDonald, Sandy, Pittston, Valentine and S. O. Hierco, side-wheelers, and the tugs Adriatic, F. Du Verne, J. C. Hart, Dr. Kennedy, J. D. Schoonmaker, H. T. Caswell, Columbia, I. M. North, Harry and several others.

On they came crushing and grinding each other in their mad race downstream together. Just below was the Cordis and a few other boats. All were swept down together. They went so rapidly that every effort to stop them was useless. Hawkers thrown out to those aboard were fastened in the cleats but as they drew taut they either snapped like pistons or wrenched the cleats from the boats.

Women Leaped to Island

The greatest excitement of all the terrible scene, said The Freeman writer was the sight of families who occupied some of the canal boats. They, especially the women, were frenzied with fear, and well they might be, for had they been swept into the river in their boats many of them would have likely drowned. Most of them leaped to the island dock as the boats swept by and some got ashore by leaping on the floating ice. It was a miracle that no lives were lost during this exciting escape.

continued to push past the dock, the creek.

Only one Person Hurt

The only person seriously hurt, as far as known, was Captain Charles Post of the Caswell. His right leg was caught between a hawser and a boat and was badly broken near the knee. Mrs. Smith and Stern crossed the ice to the boat and dressed the wound. Captain Post was then carried over the boats to the firm ice and a blanket.

Solid Ice To Bottom

The following morning the ice at the mouth of the creek was jammed in a solid mass all the way to the bottom. About 5 o'clock the tug Mills tried to get out to the boats, but near the canoe house she stopped, and could not make the slightest impression upon the ice pack.

The damage to the boats outside in the river was reported not so great as at first thought. Much worse work had been smashed, but the hulls of the boats seemed to be all right, and were not leaking to any extent. The Pittston and Adriatic were damaged the most, but it was thought that both could be saved.

On the afternoon following the letting go of the ice jam the tug Schoonmaker, Hart and Harry were working to break up the jam at the mouth of the creek. Until that was done no boats could come in or out.

Navigation Resumed on Creek

The Freeman report said that the following day the steamship C. A. Schulz began making trips from Eddyville and her captain reported the creek free from ice.

In the issue of March 15 it was stated that the tremendous jam of broken ice at the mouth of the creek had been dislodged and the entire Cornell fleet had been towed to places of safety.

They Used Snow Shoes

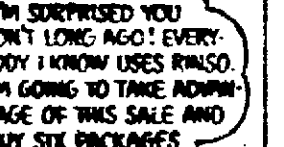

The Freeman of March 16, 1893, said that Supervisor Jones of the town of Hardenbergh was in town, and reported that the snow in that town was deeper than in many years. In some places the drifts were so high that the people found it hard work to stir from their homes, and that many living in that town were forced to wear snow shoes to get about in.

UNION CENTER.

Union Center, March 14.—The Ladies' Aid Society will serve a supper in the chapel Friday evening. The menu will be: Meat, scalloped potatoes, baked beans, biscuits, jelly, pickles, cake and coffee. Ice cream will be on sale. Serving will begin at 5:30 o'clock. A short musical program will be given at eight o'clock at which an offering will be taken. Everyone is welcome.

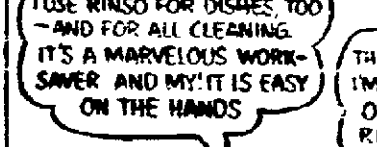

## OUR DAILY PATTERNS

I MUST TRY IT...

I'M SURPRISED YOU DIDN'T LONG AGO! EVERYBODY I KNOW USES RINSO. I'M GOING TO TAKE ADVANTAGE OF THIS SALE AND BUY SIX PACKAGES

I USE RINSO FOR DISHES, TOO—AND FOR ALL CLEANING. IT'S A MARVELOUS WORK-SAVER AND MY IT IS EASY ON THE HANDS

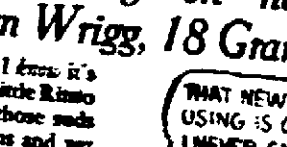

THAT SETTLES IT! I'M GOING TO ORDER SOME RIGHT NOW

**Safe for colors—easy on hands,"**  
**says Mrs. William Wrigg, 18 Grand St.**

**"I ALWAYS insist on Rinso because I know it's safe for both fabrics and colors. A little Rinso gives a lot of rich suds; and how those suds soak out dirt! My wash fairly glistens and yet I never boil or scrub. I use Rinso for dishes and all household cleaning because it is so easy on my hands."**

**MRS. WILLIAM WRIGG,**  
**18 Grand St., Kingston, N. Y.**

Makers of 40 famous washers recommend Rinso. Marvelous for tub-washing, too. Soaks out dirt—never scrubbing—never skin chafes. Rinso gives rich, lasting suds, sets so tender soaps. Makes dishwashing easier. Tested and approved by Good Housekeeping Institute.

Elmer—Yes, I noticed that when they passed the collection plate.

No sir, no one can make us believe that women give away secrets. They merely exchange them.

This is the way a modern 15-year-old girl sounds over the telephone: "Yeah? Is that so? Says you. Huh-huh. You'd be surprised. Yep. Nope. Oh, he did, did he? Well, if I ever hear him say that it will be just TOO BAD. Sure, I'll tie a can to him. Yep. Nope. Toodle—oo! I'll be seeing you!"

Junior—Mother dear, we're going to play elephants at the zoo and we want you to come.

Mother—What on earth can I do?

Junior—You can be the lady who gives them peanuts and candy.

Synical synonyms: Independent Salesman—One who takes orders from no one. Champagne—A beverage that makes you see double and feel single.

Losing Your Reason—Inability to remember the story you had fixed up for the wife.

Antiques—Furniture that has been paid for.

Pair of lights—Two drunks.

Twenty-eight to thirty—The best ten years of a woman's life.

Lass—I refused to date with your brother and I hear he has been drunk for two weeks.

Chum—Yes, the fool does not know when to stop celebrating.

When the meek inherit the earth, a wise first move will be to discount the front door bell.

Young Wife—Oh, I'm so miserable. My husband has been out all evening, and I haven't the faintest idea where he is.

Experienced Friend—My dear, you mustn't worry. You'd probably be twice as miserable if you did know.

Following the lines of least resistance is what makes men and rivers crooked.

#### Hardest Wood

The rare, one of Australia's numerous hardwoods, seems to be the strongest, known timber, with an average tensile strength of 24,000 pounds to the square inch and a maximum as high as 25,000—about equal to cast and wrought iron.

Far into the jungle, with Puff on his back. The tiger retreats to his little grass shack. His wife's at the door. She's surrounded by cubs. Puffy falls in the midst of these soft little tubs.

#### HOLLYWOOD SIGHTS AND SOUNDS

**HOLLYWOOD**—Leo Carroll, an erudite fellow who came originally from the English stage but had been in New York since 1924, made a decided personal hit in the role of the butler in the Broadway production of "The Green Bay Tree."

When he was invited to take a screen test he offered scenes from several other roles he had done with equal success. In some time, although there is a quantity of killing during the run of the film, its cleverness, its dialogue and its splendid cast all help to take away the stigma of too much bloodshed. The plot concerns a certain mysterious gentleman with a peculiar penchant for stabbing policemen to death. Naturally, this causes great activity among the various arms of the law in a valiant effort to arrest and retard the killer's progress among the diminishing police force. Robert Montgomery, in the starring role, does yeoman work in bringing the killer to justice. Lewis Stone and Elizabeth Allan are also in the cast. Mr. Montgomery was never cast in a picture better suited to his talents, and the whole show moves along with a brisk, exciting speed that has no let-up. Grand entertainment.

Orpheum: "Sitting Pretty." A musical romance, much like the rest of them, but well worth seeing. Filled with lively and tuneful songs, multitudes of beautiful girls, some really funny comedy and well trained dance choruses, this show has everything necessary to class it as a hit. The giant cast offers such stars as Ginger Rogers, Jack Oakie, Lew Cody, Thelma Todd, Jack Haley, Pickens Sisters and Gregory Ratoff.

Broadway: "Cross Country Cruise" and "Trick for Trick." Low Ayres, Alice White, Alan Dinehart, June Knight, Minna Gombell and Arthur Vinton get tangled up in a variety of melodramatic moments during the course of a cross country bus cruise. Low Ayres, a playboy with incoherent ideas, sees June Knight get on a bus for San Francisco and immediately buys a ticket. Alan Dinehart had planned to travel with June Knight but his wife comes along to complicate matters. And there is Alice White, stealing the show as a hitch hiker deluxe. The bus travels through some beautiful scenery on the way, and the action moves along with a fast and comical pace throughout. "Trick for Trick" is the second feature offering with Ralph Morgan.

Tomorrow: Kingston: Same.

#### Takes It In Good Grace

He is playing it, incidentally, with good grace. He doesn't mind playing a butler, one butler. But he intimates that he'll go back to the stage without hesitation if it is even suggested that he do another butling gentleman.

Although he has seen 10 feature films in his life, he knows enough about "typing" of actors to realize that one butler part may be sufficient to add his name to the select list of screen butlers which includes Halliwell Hobbs, Sidney Bracy and Edgar Norton, among the better known.

#### Regaining Confidence

Sally Blane is returning to England for two pictures after completing "Stolen Sweets." She says England is good for her self-confidence. In Hollywood that attribute is considerably undermined because here she feels like "Loretta Young's sister."

Instead of Sally Blane. "I'm Loretta, Loretta and I were sisters—I wasn't just 'Loretta Young's sister,' if you know what I mean," she explains.

Internationalism is getting a break in movie titles that embrace the whole of mother earth. There are "The World Moves On," "The World Is Ours," "The World Is Mine," "I'll Tell the World," on top of the recent "The World Changes" and "Man Of Two Worlds."

#### At The Theatres

Today

Kingston: "The Mystery of Mr. X." Just about the most exciting entertainment to come to the Kingston Theatre in some time. Although there is a quantity of killing during the run of the film, its cleverness, its dialogue and its splendid cast all help to take away the stigma of too much bloodshed. The plot concerns a certain mysterious gentleman with a peculiar penchant for stabbing policemen to death. Naturally, this causes great activity among the various arms of the law in a valiant effort to arrest and retard the killer's progress among the diminishing police force. Robert Montgomery, in the starring role, does yeoman work in bringing the killer to justice. Lewis Stone and Elizabeth Allan are also in the cast. The bus travels through some beautiful scenery on the way, and the action moves along with a fast and comical pace throughout. "Trick for Trick" is the second feature offering with Ralph Morgan.

Tomorrow: Kingston: Same.

Orpheum: "Counselor at Law" and "Under Secret Orders." One of John Barrymore's best screen offerings is the first attraction on the Orpheum bill. It tells in realistic

style the story of a man's rise in the money market. It isn't the story that makes the picture so well worth seeing as it is the acting. Mr. Barrymore is perfect in the starring role, and is surrounded by a cast of excellent players. Even the smallest "bit" parts of this film are models of acting excellence. Worth seeing for the "Secret Order" is a melodramatic business thriller with Donald Douglas and Phyllis Barakat.

Broadway: "Four Acts of Vaudeville" and "Time Sunday Afternoon." The Broadway is prepared for another crowd on Friday and Saturday with the advent of vaudeville. So popular has this feature been with Kingston people that the management is trying to bring four especially entertaining and talented acts this week. "One Sunday Afternoon" is a rather peculiar story. Gary Cooper, a small town dentist, has for years held a lasting hatred for Neil Hamilton, because he married Fay Wray, the girl he wanted. Then one Sunday afternoon Neil drops around to have a tooth pulled. Mr. Cooper gives him the go in large quantities, and then something occurs that makes Mr. Cooper realize he is glad he married another girl instead of Fay Wray.

#### DRY BROOK

Dry Brook, March 15.—Mr. and Mrs. Atwood Crook and daughter, Margaret, of Hamden were guests of Mr. and Mrs. Reginald Todd Sunday.

Dr. G. B. Maurer made a call in this place Tuesday.

Mrs. LaMoure Stewart of Turnwood, who underwent a major opera-

tion in the Margaretville Hospital recently, is spending a few days with her parents at Stewart Farm.

Roy Todd went to see Dr. Maurer Monday for treatment for his arm, which he injured by falling on ice recently.

George Armstrong, Jr., and family are able to be about again, having been confined to their home for several weeks by illness.

Mrs. Iola M. Grover, a nurse at Margaretville Hospital, was a guest of Miss Magdalena Stewart Tuesday evening.

Mr. Todd and son, Oscar, of Fleischmanns were business callers in this place Tuesday.

Lynn Bookhout of Roxbury was a caller in this place early in the week.

Mrs. Katherine Leal, LeMoure Stewart and sons, Donald and Paul, of Turnwood visited Mrs. LaMoure Stewart at Stewart Farm Sunday.

Quite a number from this place attended a dance at Hallow last Friday evening for benefit of the Fish and Game Club and report having had an enjoyable time.

#### FITS--ATTACKS CURBED

There is new hope for victims of epilepsy, judging from the many who have tried Lipoa, a home treatment. One user after another now writes that Lipoa has relieved them of attacks. Its fame has spread for 25 years as one user has told another. If you suffer, send name, age and address to E. Lipoa, Apt. 63, 122 E. Wright St., Milwaukee, Wis., and he will send a trial supply of this splendid treatment free.—Adv.

## Licenses Revoked And Suspended

Albany, N. Y. March 14.—The Commissioner of Motor Vehicles revoked and suspended 371 certificates of automobile registration and driving licenses during the two weeks ended March 3. Of these cases, 177 will require proof of financial responsibility before application for new licenses will be considered. There were 51 revocations and 209 suspensions in New York city and vicinity, and 57 revocations and 121 suspensions in other parts of the state.

In the Albany District there were 14 revocations and 31 suspensions. Drivers in this vicinity were affected as follows:

**Revocations**  
Thomas McCullough, East Kingston, for driving while intoxicated.  
**Suspensions**  
Leon Miller, 243 Broadway, Kingston, for reckless driving.  
Martin Eckert, West Shokan, for license irregularly issued.

**YOUNG PEOPLE TO HOLD SERVICE AT EDDYVILLE**  
A special service of worship by the young people will be held at Eddyville M. E. Church Sunday afternoon, March 18, at 2:30 o'clock.

The young people with the leadership of Miss Katherine Nielsen will conduct the service. The pastor will preach a sermon for young people. Others taking part in the service will be Helen and Ida Nielsen, Dorothy and Violet Smith, Evelyn Edge and Catherine Meyers. Miss Lucille Elston will assist at the piano. A large attendance is expected. Everyone is welcome.

# Suppose THAT CORD BROKE in your tire!

THIS is a machine for stretching cords the way they'll have to stretch in your tire—every time the tire rolls around, which means about 500 times a minute at 45 miles an hour.

Both cords have been stretched exactly the same—and then released.

Look at the farther cord. It's come back tight and straight again. That's Supertwist—the cord used in every ply of every Goodyear Tire.

Now look at that broken cord in the foreground—and think what might happen if you had cords like that in your tire!

There's a little lesson in safety that's won millions of people to Goodyears—because it shows, without a lot of empty claims, exactly how much better Goodyear protects you from blow-outs—and why you get longer average life from a Goodyear Tire.

If this sounds a little technical—we'll sum it up in this: More people ride on Goodyear Tires than on any other kind—and of course that means more people buy them! How about you?

## Flashes of Life Sketched in Brief

By The Associated Press

Drinks Are on the Watch

Spokane, Wash.—The arrest of

Fred Scott, 50, revealed that bar-

keepers who accept notices as

pledges for the drinks must report

to the police. To fail to do so con-

travenes the pawn-shop statute.

Minds His Mamma

Washington—Walter Fry Barker,

smaller page in the Senate mind-

As he waited for a taxi after the

Senate had adjourned, a fine black

Limousine drew up and a gentleman

in it offered him a ride home.

"No, thank you," said Walter.

"My parents told me never to ride

with strangers."

The limousine whisked Attorney

General Cummings away.

A Judge in Jail

West Hartford, Conn.—At least 50

days must elapse before Leo J.

Flaherty, 28, of Woonsocket, R. I.,

can enjoy the fruits of his strenuous

campaign.

He was elected judge of the Kan-

zoo court in the Federal Transient  
Camp, deposed and then came back  
and a winning campaign. Flaherty  
again won him the "big chair" in  
the election caused a rumormongering  
in camp. Flaherty was arrested on a  
charge of breach of the peace.

The judge of West Hartford court  
told the "freedom" of the Kan-  
zoo court thirty days in jail.

The Last Roundup

Chicago—The iron horse has been

labeled again.

The horse, a tractor, was used in

the last roundup of the buffalo in

the Palos Park Forest Preserve, which

the county board decided to dis-

pose with to save expenses.

"Tom," a vicious bull buffalo

which fatally gored another buffalo

the other day, was driven into a

corral by a preserve employee, riding

a tractor, and was then lassoed, later

to be dragged into a truck with the

use of the "iron horse." Another

buffalo was treated similarly and the

pair turned over to Charles Lind-

quist to raise his farm at Mercer,

Wis.

Nice Ray-bees

Chicago, Yes, Albert Cosmos, has

bananas in the store where he is em-

ployed, but that's not all.

He reported that not only was

there a tarantula, with a five inch leg

spread in a bunch of bananas he un-

packed, but that investigation re-

vealed fifty lady tarantulas in a nest

in the fruit.

Anatomy Lesson

Philadelphia—Where his heart

should be Morton Glick, 5, has his

liver. His heart is over on the right

side.

All of which doesn't bother Mor-

ton, but it got a hospital staff so

amused that they postponed his

tonsil operation to take a lot of X-

ray pictures and see what else they

could find misplaced.

"So You Won't Talk—Huh?"

Chicago—It would be entirely in-

correct to assume that when Police-

man Jacob Cramer allegedly hit

choked, and kicked his wife, Edna,

snapped a pair of handcuffs on her

and then locked her up in a cell, that

he was angry.

"It was just his way of practicing

to be a sleuth," she explained a suit

for separate maintenance. "He uses

me for his laboratory work. It's

funny though, he never made an ar-

rest in real life."

They've discovered La Salle's fa-

mous fur ship, sunk in Lake Huron

in 1878, but the furs are not much

good. Now if it had been whiskey!

## Financial and Commercial

New York, March 15.—The financial and commercial situation today was generally quiet, with a few scattered transactions. The stock market was steady, with a few fluctuations. The bond market was also quiet, with a few transactions. The foreign exchange market was steady, with a few fluctuations. The commodity market was quiet, with a few transactions. The overall market was calm, with no major news events.

## El Salvador City a Mass of Ruins Today

San Salvador, El Salvador, March 15.—Much of the city of La Libertad is a mass of smoke ruins today, leveled by fire which spread after a port explosion in which about 150 persons were killed. The blast, which could be heard here in the capital about 30 miles away, occurred when dynamite exploded as it was being unloaded from a ship at the docks. Fire broke out. Flames spread quickly to buildings and swept over many blocks. The city hall and a church were among the important buildings consumed. It was said that not one man of those handling the explosives escaped death. Four customs agents and a telegraph operator died also. It was feared other deaths might follow among the injured.

### DR. THAYER ADDRESSES MT. MARION P. T. A.

Dr. Thayer, commissioner of correction of the state of New York was the speaker at the March meeting of the Parent-Teacher Association of Mt. Marion, and delivered an interesting address. He touched on conditions of the old prisons and that the prisons were not just built for punishing criminals but also to aid in their reform. Under existing laws men who are prepared to come back into community life must be retained in prison when wholly unfit are released. He favored the system of parole and indeterminate sentence system saying it was the only intelligent way of dealing with men who have broken the law. He said that if the church, school and home could do their work better the prisons would be emptied. He showed by statistics that even a high school graduate will seldom be an inmate of a prison while a university graduate is almost unheard of. He said that education plays a large part in the prevention of crime, and that it was much cheaper to educate a boy than to send him to prison.

### First Factory Made Cheese

Production of cheese as a factory product first made its appearance in the United States in 1880, says Pathfinder Magazine. No mention is made of factory made cheese in the census bureau statistics of 1849 in its first report of this industry; only the amount produced on the farms is mentioned. Factory production of cheese was first included in the census bureau surveys in 1880. During the early history of this country every big farm had its own cheese press, and the farmer's family added cheesemaking to the long list of its other accomplishments, such as spinning, weaving, carpet making, soap making, bee keeping, candle making, cider making, etc.

### June Weddings

June weddings are "good to the man and happy to the maid," according to the old saying. The belief comes from a Roman superstition arising from the fact that in June was held a great festival in honor of Juno, Queen of Heaven. Juno was the special guardian of women. She watched over them at their birth, their marriage, and throughout the rest of their life. To be married during the month in which her festival was held was believed to attract her special favor, and so insure the perpetual happiness of the bride and her husband.

### Saucer and Cup

A saucer has not always accompanied a cup. The word saucer is derived from the old French "saussier," or "saussiere," it was originally a receptacle, usually of metal, for holding condiments at a meal, or a dish or deep plate in which salt or sauces were placed on the table. In this sense it is mentioned in English literature as early as 1345. Later the word was used of a small, round, shallow vessel to support the cup and to catch any liquid spilled from it. The earliest recorded instance of its use in this sense is 1753.

### "Center" and "Middle"

In general usage the words "center" and "middle" may be used synonymously, but in rhetoric there are shades of difference. For instance, one may speak of the center of the earth, or of a circle, or the center of population. We usually speak, however, of the middle of a line, or the middle of a week.

## HOW

LESPEDERA, THE CLOVER PLANT, GOT THAT NAME—When you stop to think of it, Lespedeza is a rather queer name for a clover plant. But the public is so used to it that it is as good as any. But why Lespedeza? An interesting story is told by one of the plant specialists of the United States Department of Agriculture of how this name was given to the plant. In 1820, Michael, a French botanist, found and described the plant while making botanical excursions in Florida. He named it Lespedeza, who had assisted him in his work. But the record fails to show that Florida ever had a governor by that name, the chief executive of the state at the time the Frenchman was there being Calles. Hence, the assumption is that the name Lespedeza was either an error or a misprint, and the legend that is now becoming popular among farmers is not designated as an unproven story. Lespedeza does not alter the fact that it has proven to be a valuable hay and pasture plant. As the poet would say, "it rose by any other name would be just as sweet."—Indiana Farmer's Guide.

## How Glaciers Worked to Dig the Basins of Lakes

Glaciers lived in Glacier National park at a time when the climate was almost tropical. As mountains appeared, the weather grew cold. Snow at last began to fall—more snow than the summers could melt. Gathering on protected slopes, says the American Nature Association of Washington, snow slowly packed into fields of ice. Then that ice began to move, and soon was grinding down toward the plains. Thus glaciers began their work—that dug the basins of lakes and deepened the slopes of ridges and peaks. At their heads, they broke away blocks of rocks, which worked their way into the ice, where they gouged and scraped at its bottom and sides. In the valleys where trails begin, that ice was 2,000 feet thick. What chance had mere limestone and shale against such a rasp as that? As the climate finally began to warm, glaciers slowly melted away until only remnants remained. Sixty such remnants still survive: relics of mighty streams of ice that shaped the scenery of the park.

## How Bees Sting

A bee's sting is a very complicated, according to an American entomologist, who says that a bee's sting is the modification of an organ common to the insect race—the ovipositor with which the female deposits the eggs. Countless ages have changed this into an effective natural weapon, says Pathfinder Magazine. Approximately 25 muscles are required to complete an ordinary sting (the number slightly larger if a queen bee does the stinging) and the act involves three separate sets of movements. First, the outward thrust of the sting; second, depression of the sting; and last, action of the lancets on the sting which drives it farther into the flesh of the victim. Retraction of the sting is brought about by a contraction and expansion of the abdomen, which acts like a bulb. A poison-secreting organ opens directly into the channel of the sting and valvular lobes drive the liquid poison through it.

## How Phi Delta Kappa Formed

The present fraternity known as Phi Delta Kappa grew out of the consolidation of three prior independent organizations—Phi Kappa, Mu, organized at Indiana university in 1890; Phi Delta Kappa, organized at Columbia in 1893, and Nu Rho Beta, organized at Missouri in 1899. Representatives of these societies met at Indianapolis in 1910 and effected a consolidation known as Phi Delta Kappa. This is an educational fraternity and is distinctly professional in character. It is devoted to research service and leadership in education. Membership is honorary in character, and outstanding scholarship is a major requirement of each candidate. The majority of members are graduates at the time of election.

## How a Kayak is Made

A kayak is an Eskimo canoe, usually of seal skin and completely decked, the covering being laced about the paddler, who sits in an opening amidships. Kayaks are 12 to 15 feet long and about 16 inches beam amidships and seat one person, or rarely two. They are made by covering a light wooden framework with seal skin.

## How Much of Illinois Is Egypt?

Some authorities confine the term to that part of Illinois which is south of the line of the Baltimore and Ohio from St. Louis to Vincennes. Others use it with reference to as much of the state as lies below the line of the Pennsylvania railroad from St. Louis to Terre Haute.

## How to Keep Lungs Clean

## Veterans Bill Nears Compromise Today

Conferees From Senate and House at Work Today in Privacy to Effect Valuable Amendments to Meet Executive Sanction. Washington, March 15.—The much-mooted veterans' benefit bill, productive of turbulent uprisings in both Senate and House, was headed today toward a compromise acceptable to President Roosevelt. Behind closed doors, possibly late today, conferees from Senate and House planned to try for an agreement on payments to veterans and government workers. Suddenly softened demands were voted by the House last night. The Senate some time ago tacked amendments on the independent act, adding about \$354,000,000 to veterans' benefits and payments to federal employees. This the administration considered a blow at the economy program and a veto by the President was threatened. The House modified the measure last night, cutting the expenditures down to about \$261,000,000. First indications were that a compromise could be reached without long negotiation. The attitude of the Senate however, was not finally determined. House Democrats, after once bolting their leaders, capitulated suddenly last night to open the way to an agreement. As the threat of a presidential veto was waved repeatedly over the Senate amendments, substantial House majorities voted for compromise proposals not far removed from those proposed by the administration. Here are the amendments adopted by the House: A \$30,000,000 compromise by Representative Taber (A. N. Y.) to restore 25,000 World War presumption cases to the pension rolls permanently at 75 per cent of the amount received before the economy act. Increased allowances to disabled World War veterans, to cost about \$20,000,000. Restoration of about \$15,000,000 to Spanish-American War veterans through resumption of 75 per cent of their pre-economy act pensions. Restoration of five per cent of the Federal employees 15 per cent pay cut now, and another five per cent July 1.

## Strewl Sentence Held Back Awaiting Inquiry

Albany, N. Y., March 15.—(AP)—Sentencing of Manney Strewl, convicted kidnaper of Lieut. John J. O'Connell, set for tomorrow, was postponed today pending the completion of an inquiry into how a reading glass reached the jury room during verdict deliberations. County Judge Earl H. Gallup continued the sentence date to March 20. Daniel H. Prior, Strewl's lawyer, asked postponement of the sentence. Prior contemplates asking for a mistrial order based on the belief that the reading glass was smuggled into the jury room. All of the jurors have been questioned as well as deputy sheriffs who attended the jury. The fact that a reading glass was in the jury room assumes important proportions because much of the testimony against Strewl centered around handwriting. The state alleged he wrote the ransom notes which he purported to receive as go-between in the kidnapping.

## SERVICES ON FRIDAY AT TEMPLE EMANUEL

Services will be held at Temple Emanuel Friday, March 16, at 7:45. Rabbi Bloom will preach on the theme "A Leader in Israel." In celebration of the 60th Birthday Anniversary of Dr. Stephen S. Wise. The high school class will meet in the social hall of the Temple Saturday morning, March 17, at 10:15. The confirmation class will meet in the social hall of the Temple Saturday morning, March 17, at 11:15. The adult class will meet Thursday, March 22, from 8 to 10 o'clock at the home of one of its members.

## VOCAL AND PUPILS AT KATRINE INN SATURDAY

The management of the Katrine Inn, Lake Katrine, as will be found in the resort's advertisement in the Freeman, has engaged Paul Yocan and several of his pupils to do an entertainment feature Saturday nights for several weeks, starting March 17. Mr. Yocan, who has a school for instructions in dancing and reducing exercises in the Whelan building on Wall street, corner of John, will be remembered as one of the stars in the recent Junior League Revue.

## ST. PATRICK'S DANCE AND ENTERTAINMENT AT ST. MARY'S

Saturday, March 17, will be observed in St. Mary's Hall, Broadway and McEntee with an entertainment and dance in the evening and expectations are that there will be a crowd present to enjoy the program. There will be two orchestras, one for modern dances and another for old fashioned. Zeke Boss is in charge of the show and promises a very entertaining bill of vaudeville.

## Seavers Grow Large

Reptiles that lived on the American continent about a million years ago ranged in size from specimens as large as a ground squirrel or woodrat to others as large as black bears, according to the curator of the museum of paleontology at the University of California. He arrived at this conclusion after a three-year study of fossil bones from the Tertiary and Pleistocene geologic ages. Thirty-four species were studied, which range back into the Tertiary period, approximately 40,000,000 years ago.

## About the Folks

Mr. and Mrs. George J. Schryver who have been spending some time in Florida, have returned home. Miss Grace V. Merritt of Clinton avenue, who has been seriously ill for over four months, is slightly improved. J. R. Little Crystal Winnie spent a few days with her grandmother, Mrs. Clara Cooper, at Big Indian. George Thompson called on Charles Krom on Tuesday afternoon. John Oakley called on Vernon Peck on Saturday.

## Barley Growth in U. S.

Barley grows very rapidly in the northern United States, maturing about three months after seed sowing, and flourishes farther north than any other cereal. Its use is, however, limited here because its lack of gluten makes it unsuitable for our common raised bread, and its addition to wheat-flour darkens the loaf.

## Poems of Beauty Selected by BYRNE BROS.

By P. B. SULLIVAN

Maria, when soft voices die,  
Vibrates in the memory—  
Ourselves, when sweet voices die,  
Live within the song they quiver.

Rose leaves, when the rose is dead,  
Are they for the beloved's bed;  
And so thy slumber, when thou art gone,  
Love truly shall shelter.

To master what your chronicles, we have the immortal suited to your taste. A complete selection of poems in appropriate design.

# Maybe Jimmy's Shuffling To Get New Salary Deal

If you've been wondering what big league baseball holdouts do while actively engaged in the business of holding out, have a look at Jimmy Fox, most celebrated holdout case of the current spring training season. Fox, who has a very wide salary difference with the Philadelphia Athletics, is shown playing shuffleboard with his attractive wife at Fort Myers, Fla., near—but not too near—the Athletics' training camp.

## Gibson Trusts in "Red" Lucas To Bring Pennant to Pirates

By RUSSELL NEWLAND Associated Press Sports Writer  
Paso Robles, Calif., March 15 (AP)—Pittsburgh's Pirates are going gunning for the National League prize this season with high hopes that a newcomer to the crew will mean the difference between first place and the runner-up position they have occupied the last two years.

The burly baseballer in whose experience Manager George Gibson is placing considerable trust is Charles "Red" Lucas, late of the Cincinnati Reds pitching corps and a pinch hitter who really "hits in the pinches."

Good Record For '33 Lucas landed with the Pirates after eight years with the Reds. Manager Gibson reasons the broad shouldered right hander should bolster his hurling staff almost on the strength of his 1933 record. For a fall and club, "Red" won ten games and lost sixteen. His pinch hitting is expected to provide one of the hot spots of the Pirate attack. During his eight years tenure at Cincinnati, Lucas compiled pinch hitting grand average of around .460. He hit for .387 in 175 games last season.

Aside from the addition of Lucas, the Pirate squad is virtually the same as that which led the pennant parade part of last season and trailed the Giants in at the finish.

**Field Proven** Gibson believes his outfield compares with any in the league. It lines up with the Waner brothers, Paul and Lloyd, and Freddie Lindstrom. Lloyd Waner may be shifted from left to center field this season, a position he held down regularly until Lindstrom came over from the Giants a year ago. Lindstrom is equally at home in left. For utility purposes, Forest Jensen and Walter Koetger are available. Koetger came with Lucas in the Cincinnati swap for Adam Comorosky and Tony Plet.

**Give Snakes the Laugh.** The mongoose, the hedgehog and the pig are said to be immune from the venom of poisonous snakes.

# Kias Best Coach Kingston Ever Had, States Editorial

During his first year at Kingston High School, a young man, this young man was just starting on his coaching career and Kingston High School was his first assignment. "Seven years ago there came to Kingston High School a young man, this young man was just starting on his coaching career and Kingston High School was his first assignment."

The editorial follows: "In Tribute" "Seven years ago there came to Kingston High School a young man, this young man was just starting on his coaching career and Kingston High School was his first assignment."

Before the arrival of Warren Kias at Kingston High a championship team was a very rare thing. The student body supported their team not because they thought the team would win but because the team was representing the school.

During his first year at Kingston High, Coach Kias turned out a championship team in baseball. That was in 1925. The following winter, Kingston won the championship in basketball. This made two championship teams within a year.

Behind the plate Earl Grace and Hal Finney claim first and second string positions respectively with Tom Padden, also a hold-over, batting a newcomer, Art Veltman, for the third berth. Veltman, drafted from Oakland, has shown impressively. He hit .331 last year.

**Pitchers Satisfactory.** The pitching staff offers but few worries. Lucas is a certain starter, as will be Harold Smith, Larry French, the star southpaw, and probably Ralph Birkofer, another left-hander who was recalled from Toronto last midseason and produced satisfactorily.

Other holdovers include Heine Meine, Bill Swift, Bill Harris, Waite Hoyt and Leon Chagnon. Meine and Swift probably will round out the regular starters. Two bright rookie prospects fighting for one of the nine pitching berths are Lloyd Johnson, a six foot four inch southpaw purchased from the San Francisco Giants, and Darrell Blanton, from St. Joseph, Blanton, a right hander, won 21 and lost 7 last season.

(Tomorrow: Detroit Tigers)

## SPORT SLANTS

The answer to what the Madison Square Garden promoters were trying about in trying to conduct a Camera-Loughran fight at Miami fairly simple. They spent a good share of the time conducting the complicated negotiations involved in arranging for one heavyweight "natural" of 1934—Carnera vs. Max Baer, the California song and dance man.

There's good reason to believe now, after months of argument, the bout will be held in New York this June jointly under the auspices of the Garden, the Free Mills for Ladies, Inc., and William Harston (Jack) Dempsey, Baer's mentor.

So most of those concerned with out of Florida pretty well pleased with themselves, even though profit whatever accrued from the Camera-Loughran affair.

**Two 'Reasons' For Fight** Aside from the fact it was a gesture, anyway, for Loughran to get his title chance, there developed only two other reasons for the Miami bout this winter. In the first place, it seems Carna's American agents, badly needing some spot cash, were willing to go so far as to sign for the match in Florida, little thinking at the time that the Garden would insist on lining through with it.

Secondly, the Garden itself wanted to repair the weather-beaten Miami stadium to protect a \$150,000 investment there and figured the fight would write off the cost. To date they discovered they had miscalculated but the stakes were ready down.

Optimistic reports about the boom misled the fight folks but Florida can't be blamed for that. The crowds were there, as advertising their failure to create any scene around the stadium can be attributed more to discrimination and lack of fistie interest than anything else.

**Even Resorts Discriminate** It should be apparent now to all and all that these winter playgrounds are not automatically a happy hunting grounds for pugilist promotion. The boys continue to make the mistake of thinking in terms of 1929, when the colorful Sharkey-Stribling bout was a dunk sellout.

Times not only have changed but the tourist trade in such places as Miami is no more likely to be taken in now by a poor match than fans who have been staying away from fights at Madison Square Garden, New York, in large numbers.

**Intercollegiate Boxing.** Syracuse, N. Y., March 15 (AP). With eight individual crowns and team championship at stake, 41 boxers will open the eleventh annual eastern intercollegiate boxing tournament at Syracuse University tomorrow.

## Hi-Y Basketball Results Wednesday

Wednesday evening on the Y. M. C. A. court, after the regular Hi-Y meeting, the fifth set of games in the Hi-Y basketball series was held as a result, Hi-Y No. 1 defeated Hi-Y No. 3, 12-9, after leading throughout. In the second game, Hi-Y No. 4 tramped over Team No. 2 in a last half rally to a 29-14 victory, after No. 2 had led at halftime 9-7. This latter contest featured "Alderman" Haines of the winners with 11 points. Haines was followed in scoring by Baltz of the winners and Van Etten of the losers with 9 and 5 points.

**Hi-Y No. 1.** Mac Fadden 2, Eastman 6; Hainsbrook 0, Clark 0. Total 12.

## BILLIARDS

**Wojcio Wins** Playing in top-notch form, Stan Wojcio decisively defeated Julius Teller, former city champion, in the first block of their playoff for second place in the 1934 series. Wojcio's score was 129, Teller's 68. The Polish ace needs only 71 more balls to 132 required by Teller to cop second prize.

Wojcio started with runs of 10 and 14 but was behind Teller in the 19th frame. However in this stanza he began the shooting that helped him out in the latter stages of the duel. The downtown boy's best runs were 23 and 28, Teller's was 19.

**Kaslich-Quick.** Clifton Quick, now leading, and Steve Kaslich play the final block in their playoff for fourth place to night.

**East Kingston Tourney** In the East Kingston billiard tournament Wednesday night Joe Mitchell defeated Joe Ferguel, 100-75, and Charles Davide trimmed Salvy Gallo, 100-78.

High runs were Ferguel 14, Mitchell 8, Davide 11 and Gallo 5. Matches tonight—Earl Mitchell vs. Vince Berardi and Tony Mottsey vs. James Rua.

## WHAT SOME REDUCED-PRICE CIGARS CLAIM...

**Bayuk**  
**GUARANTEES**

Bayuk "Phillies" is not a regular 5c cigar value. Neither is it a former 10c cigar reduced in size or quality to sell for 5c.

Bayuk "Phillies"—at 5c—is exactly the SAME cigar—in quality, size and shape—as when it was the largest-selling 10c brand in America. We not only claim it... we guarantee it.

Have YOU tried Bayuk "Phillies"? If not—smoke one today. It will give you a new idea of cigar value for 5c. Look for the box of "Phillies" on your dealer's counter.

obligated to uphold the plans and purposes of the A. G. C. of America. Due to the late date of this meeting, the club felt able to sponsor a concert this year. Mr. Mendicino, Club of Kingston bid for the privilege of hosting the concert.

A huge mass concert will be held in New York on April 25, to which hundreds in this district were invited to participate. This concert will be held in the 71st Regiment armory and soloists of international reputation.

New, Low Priced Standard Plymouths Announced

The Plymouth Motor Corporation announces two new, low priced models as additions to its 1934 line. These two new Standard models, offered in a Two-Door Sedan (upper) and Coupe, incorporate all of the basic Chrysler Motors engineering features, including 77-horsepower engine with Floating Power mounting; all-silent transmission; hydraulic self-equalling brakes; safety steel bodies and X-type, box-section, double-drop frame, and other constructional advantages that contribute to economical, safe and comfortable transportation.

Gold Coming Back From Europe

PRESIDENT ROOSEVELT'S monetary policy, including devaluation of the dollar and purchasing of gold, is bringing great quantities of the precious yellow metal to the United States, every liner from Europe carrying its quota. In the photograph is seen the unloading of a crate holding \$5,064,000 in gold from the steamship Roosevelt.

Snow Battle Under the Palms

GIRL SCOUTS of Pasadena, Calif., had to have their annual snow battle, so the ammunition and materials for the fort was brought down from nearby mountains. The contest raged in an atmosphere heavy with the scent of flowers and with palm trees casting their shadows across the ice fortress.

Here's Your Chance to See a Ghost

CRUMBLING to ruin, this thirty-five-room mansion on the estate of the late Marlow Higginbotham near Joliet, Ill., is haunted, according to many. Some who do not believe in ghosts nevertheless claim that there are strange goings-on at night in the abandoned old house. Built at a cost of \$200,000, the mansion was deserted seven months after it was completed.

Telephone calls in the London area have increased from 750 to more than 1,500 a minute in the last decade.

American Legion Monthly Meeting

The regular monthly meeting of the American Legion Auxiliary, Kingston Post, No. 159, will be held on Friday evening, March 16, in the Memorial Building. Several important matters are to come before the meeting to be acted upon at that time. Committees who are to be charged with the Auxiliary's social and financial complete plans for the year will be made at this meeting. There will be a report of the social campaign now being held in the public schools of the city for the benefit of the American Legion Veterans Mountain Camp.

After the business meeting, members of the Post and Auxiliary will have the privilege of hearing Rev. Clarence Brown of the West Street Baptist Church who will be the guest speaker of the evening. The Rev. Mr. Brown is himself a Legionnaire and has been active in Legion circles, so that his talk will be especially interesting and worthwhile. Auxiliary members are urged to attend the meeting Friday evening.

No More Piles

Thousands of Pile sufferers do not know that the cause of Piles is internal circulation of blood in the lower bowels. This is the scientific truth about Piles, the real reason why salves and suppositories do not give lasting relief, why surgery does not remove the cause.

Your itching, bleeding or protruding Piles will only go when you actually move the cause. External treatments do this—an internal medicine should be used. IREM-RUID, the prescription of J. S. Leonard, sold by good druggists everywhere, succeeds because it stimulates the circulation, drives out congested blood and restores the affected parts.

So why waste time on external remedies or worry about an operation when you can try IREM-RUID with guarantee of success back if not joyfully satisfied with the one bottle given.—Adv.
